DMS-UM/ER25 *	UM/ER25	2	4,0 - 4,5	55	5,0 - 17,0	90	390
DMS-UM/ER32 *	UM/ER32	2	3,0 - 4,5	70	5,0 - 22,0	130	395
DMS-UM/ER40 *	UM/ER40	2	3,0 - 8,5	120	9,0 - 26,0	200	450

\* Einstellbar auf 2 voreingestellte Werte

\* Adjustable on 2 defined forces

## Vorteile:

- vordefinierte Kraft beim Anziehen der Mutter (Wiederholbarkeit)
- Verringerung von Rundlauf Fehlern durch zu starkes Anziehen
- Verringerung von Schäden an der Mutter und dem Werkzeughalter
- verringerte Verletzungsgefahr

## Advantages:

- predefined force for tightening the nut (repeatability)
- reduced risk of runout problems by using too much strength
- reduced risk of damaging nuts and tool holders
- reduced risk of injuries
